

MISSION SUCCESS

STARTS WITH SAFETY

GSFC

Safety In-Service Day

Greenbelt
Sept. 22, 1999

Wallops Flight Facility
Sept. 23, 1999

What is It?

This is a day designated by the Center Director dedicated to raising safety awareness and establishing center-wide safety efforts to reduce and eliminate work place hazards.

By working with your team or organization in a variety of activities aimed at improving the safety of your work environment and mission .

How will I participate?

Who?

Everybody! The Center Director requests all employees spend the day ensuring GSFC is a safe place to work. As safety is an integral part of our mission, the contractors will participate as part of their normal GSFC assignment.

Why is this important?

NASA is dedicated to providing a safe and healthy workplace free from recognized hazards. It is important to identify hazards so that corrective actions can be implemented.

Where will it take place?

Right in your own shop or office, led by your supervisor or project/team leader.

Who benefits from my activities?

Everyone! By helping to provide a safe and healthy work environment you benefit directly, as does your family, friends and coworkers.
